Mathematics | Week 2: Adding & Subtracting Integers | Lower Level

Name: _____

Date: _____

Directions: Solve each problem. Show your work in the space provided. Circle your final answer.

1. Calculate: $-5 + (-3)$

2. Calculate: $7 + (-10)$

3. Calculate: $-4 - (-6)$

4. Calculate: $-8 - 3$

5. Temperature was -3°F . It dropped 5° . New temperature?

6. A football team gained 6 yards then lost 9. Net yards?

7. Simplify: $4 + (-7) + 3 + (-2)$

8. If you owe \$45 and earn \$30, what is your balance?

--- Answer Key (Cut before distributing) ---

1. -8
2. -3
3. 2
4. -11
5. -8°F
6. -3 yards
7. -2
8. -\$15
